## **Quality Self Drilling Screws & Fasteners**

- Australian made fasteners built for Australian tough conditions.***
- Manufactured to exacting high standards of quality (Australian quality endorsed to ISO 9001) and subject to strict inspection and testing procedures.***
- Quality and performance is backed up by the Buildex Warranty, an industry first, guaranteeing peace-of-mind against screw damage, roof failures and expensive call-backs.***
- Fasteners available in a choice of superior anti-corrosive finishes that comply and exceed Australian and International Standards, providing the ultimate in corrosion resistance in a range of climatic and environmental conditions.***
- Only Buildex uses outdoor “real world” exposure testing to develop superior anti-corrosive coatings, at test sites monitored by the CSIRO.***
- Member of the Metal Roofing and cladding Association of Australia (MRCAA) and the Australasian Corrosion Association (ACA).***
